Project Title	Language used	Team
Cake Selling System	C# Ado.Net , MySql	Member
Monthly Electricity Meter Bill System	UML(Unified Modeling Language), MySql using Trigger.	Leader
Mcrop (Internship)	C# ASP.NET with SQL Server.	Leader

Leisure interests & Hobbies

I am interested in web development and want to work as a Software Developer.. So, I am studying HTML, CSS, jQuery, Bootstrap, Javascript. Recently, I learned the C# ASP.NET.

Work Experience

I started my career with a 3-month internship at Myanmar IT Star Co., Ltd., where I built a solid foundation in frontend development. Since then, I've gained 2 years of practical experience, focusing on building responsive user interfaces, interactive features, and working with modern web technologies.
